Madison Plant Proposal Blocked

Council Sticks to Stop Order on Negotiations For Industrial Park

The Madison City council again blocked plans for development of an industrial park for the Swift Chemical Co. until Aug. 4 following the special majority election during a regular meeting Tuesday night.

The firm is proposing to purchase a small tract at the intersection of the firm and a company attorney who were on hand at the meeting be given an opportunity to explain details of the proposal.

However, Fifth Ward Alderman John Haynes insisted that the council follow his resolution adopted the previous regular meeting that all negotiations on the industrial park development cease until after the election.

Haynes told the mayor that "we want industry as bad as you, but we want you to give us the information. He claimed that the council had been provided sufficient information in the Swift proposal and that Kozielek's negotiations have caused difficulties."

The acting mayor denied the claim, stating that negotiations were instituted a year ago by the late Mayor Stephen Maers and that the council had been provided all the information that was available.

A clarification on the original intent of the council in establishing the industrial park as to lease or sale of tracts was asked by Second Ward Alderman Richard Kismar, a freshman on the council.

New Law To Change Clean Air Demands

Public Told Methods To Cut Coke Oven Smoke 3 Years Away

Revision of the Illinois Air Pollution Control Act, as proposed in bills passed by the Illinois House on May 14, but currently under pressure for modification from industrial groups, would change Granite City Steel's blast furnace operations from compliance with state law to a violation, persons attending a public information meeting last night at the city hall were told.

Technical knowledge to correct smoke emission and other pollutant discharging from the coke ovens, utilizing a complete new method of converting coal into coke, is at least three years away, Lyle F. Guile, president of Granite City Steel Co., estimated.

A group of 40 persons attending the special meeting reacted to charges made about apathy of the general public. Those present, however, cited various complaints against the steel mill's operations at the blast furnace, but added instances of pollution from other sources in the community.

Stating that he recognized the technological problems involved in correcting pollution emission at the coke oven batteries, as well as other problems faced by industry, James D. Keenher, assistant attorney general, Southern Division Air Water Pollution Control, commented, "What it boils down to is what the people want. The people of Granite City have allowed this to happen."

Keenher cited several examples where public opinion forced change. He said that industrial concerns have speeded modification in procedures and, in some cases, complete overhauling of operations and installation of new equipment.

Research Under Way

In the city formal meeting made at the meeting, Guile said Granite City Steel has expended over \$6 million in a previously unpublished research project with three companies, which involves production of coke by a sintering process from start to finish with no emission of smoke or fumes.

The steel company executive stated that a pilot plant has

Administrative Changes Made At 4 GC Schools

Administrative changes at four Granite City schools and appointment of an elementary intern, a new position, were approved by the Granite City school board Monday night along with acceptance of a series of employee resignations and approval of new teacher appointments.

The board appointed Gilbert Walsley, assistant principal at Granite City senior high school, as principal of Prather junior high school to fill the vacancy created by the retirement of Walter Klein. Klein is retiring after 40 years in the school system.

Edward Gowas, principal at McKinley school, is being transferred to Lake school as principal, replacing Richard Brown, who has returned to teaching.

Gary Pfender, counselor, at Coolidge junior high school, was appointed principal at McKinley school in Gowas's place; and Gerald Brown, counselor at the senior high school, was appointed assistant principal at Central junior high school, a newly-created post.

To New Position

The board named Richard Ault, a teacher at Washington school, as elementary intern to serve throughout the system where needed. This also is a new position.

Memorial Day Ceremonies Scheduled Here Saturday

Memorial Day ceremonies on the front lawn of Venice-Madison American Legion Post 307 on Broadway in Venice, will be observed at 9 a.m. at the city hall in Granite City, at 10:30 a.m. at Memorial Park and at 11 a.m.

All area veteran groups will participate under the leadership of Tent 90, Daughters of Union Veterans in Granite City with Mrs. Gusie Cheatham, serving as chairman. Col. Charles E. Hoskin III (ret.), former Granite City Army Depot commander, will be the featured speaker, and music is to be furnished by the Gospel Aires.

A "Parade of Flags" in Memorial Park on Madison avenue across from the hospital will be the second observance, and is sponsored by the Disabled American Veterans. Cecil Nash, chairman, said a brief ceremony will be conducted with the raising of the flags, a firing squad and Taps.

John Brink, commander of the Venice-Madison American Legion Post 307, said services to honor veterans will be conducted at 11 a.m. on the front lawn of the post home. Kenneth Hinson is to serve as master of ceremonies. The miniature Arlington National Cemetery has been set up on the lawn.

Gold Star Mothers will place wreaths and the Venice high school band will present musical selections.

Motorist Using Eye Drops Hits Fence

James T. Copeland, 36, of 24 Bradley street, lost control of his auto about 11:15 p.m. yesterday and ran into a section of fence owned by the city of Madison at Third street and Highland avenue.

Copeland, police reported, told he was driving west on Third street and was putting some eye drops in his eyes.

"When I leaned my head back to put in the eye drops, the next thing I knew I hit the fence," police quoted Copeland.

Copeland was charged with destruction of city property.

Dispute Over Hartman

The mayor's 30-day appointment of Harry Hartman as assistant city attorney was tested by Nomm, who remarked the council could refuse to budget a salary for the job.

Scroggins answered that the city had an ordinance creating the job.

"We don't appropriate," he said.

Clerk Pendleton Resigns Post Effective June 1

Catches Aldermen by Surprise; No Reason Given in Short Note

City Clerk Homer "Cal" Pendleton dropped a bombshell on the city council Monday night—his resignation effective next Monday, June 1.

Pendleton, who was re-elected to his second four-year term last year, is on vacation and could not be reached for comment.

His surprise letter of resignation was not accepted by the council.

It was tabled by the aldermen, as several of them said they wanted to get in touch with the clerk "and try to talk him out of it."

Pendleton's letter of a sentence stated: "It has become necessary for me to submit my resignation as city clerk of Granite City effective June 1, 1970."

Feud Mentioned

While the clerk gave no reason for his resignation, persons close to Pendleton told the Press-Record of his deep concern over the turmoil of the mayor-council feud, with the clerk's office caught in the middle of the crossfire.

In the last city election, Mayor Stephen Maers took place over the resignation of Pendleton's opponent, Robert Stevens, who then was city controller, and said that if Stevens was elected, he could handle both the clerk and comptroller jobs at a savings to the city.

The council then proceeded to abolish the office of comptroller, a nod on April 30 this year the council took place with the comptroller duties going to Clerk Pendleton, who also is clerk for Granite City township as well as the city.

It is expected that Pendleton stands firm on his resignation. The council will seek either a quick special election or will contest any appointment by the mayor.

In face of council opposition, mayors in past years have resorted to 30-day appointments on the theory that council confirmation is not needed. The city attorney has stated the procedure is proper, based on past practices in Granite City, but that there are no provisions in state law for such 30-day appointments.

For the past two council sessions, Mrs. Virginia McLeister, deputy city clerk, has served as acting city clerk while Pendleton has been on vacation. She was authorized Monday to give a temporary employee to help out in the office during the current busy season for city.

"Need Time to Think"

The motion for Pendleton's resignation to be tabled was made by Alderman Basarich, who said, "We need some time to think this over."

Mayor Hartman urged the resignation be accepted. "If that's what he wants, the council should go along. I hate to see Cal leave," he heard about this at 6 o'clock this evening.

Pendleton said that he had heard Pendleton had returned to work that morning as a permanent employee of a railroad. Pendleton formerly was a switchman for Terminal Railroad Association.

Alderman Parmley protested. "I was urging him to talk to him. He might be off on a tangent. This man served honorably and maybe this is on the spur of the moment," Parmley said, adding, "Maybe as a group we can talk to him and convince him to reconsider."

Alderman Green also urged council action to prevent the resignation. "Maybe we can do something," he said.

Nomm pointed to the efficient operation of the clerk's office. "Cal came up the hard way. He's a good citizen and a good office holder."

Aldermen Disagree

Entering the discussion, Alderman Pendleton remarked, "I don't think we should do anything."

Payless Payday June 15?

City Finances on Brink; Mayor Says 'No Borrowing'

The bad news was announced at Monday night's council meeting by Alderman Robertson, Finance committee chairman, who remarked, "We've hit the point where we need to borrow money."

He reminded the mayor that the council had adopted a resolution for issuance of a tax anticipation warrant to borrow \$200,000 at 9% interest from the First Granite City National Bank.

The mayor's only comment was that he would meet with the city treasurer.

Back in January, when the Finance committee was meeting in special sessions to find a solution to the city's looming financial crisis, Mayor Partney said he would not have any part of borrowing money and paying interest and would sign a tax anticipation warrant.

He repeated this yesterday. "I submitted proposal after proposal for borrowing money to see us through until new tax money is received in July, but the council ignored them and forged ahead."

Up to Council

"There are two women, whose transfers I made as an economy measure, who have not been paid for several months. Now it looks like they'll be joined by other city employees on the next pay day, June 15, unless the council can come up with the money," he said.

In addition to the \$300,000 sewer break costs, the mayor noted, the council last year gave \$75 monthly to more than 200 city employees and com-

mitment for \$50 increases this year.

"This was done," Partney added, "after I had negotiated with the police department for \$50 monthly increases for the officers who could afford and had set the pattern for negotiations with other departments."

The council adopted an ordinance Monday night granting \$50 monthly increases to street department workers, and called for the ordinance giving the same increase to policemen, firemen and sewage treatment plant workers to be resubmitted next week. It has twice been referred to the Finance committee to equalize greater differential pay for the officers in the fire and police departments, and no copies were available.

\$50 Clothing Allowance

In addition, street workers are to receive a clothing allowance of \$50 a year. The holiday pay money to meet the June 15 payroll or pay bills," he told the Press-Record.

"We can pay the \$37,761 payroll approved Monday night and the \$22,000 bills, but then we're down to \$41,776 in the sales tax and income tax funds, and \$370 of that is contributed to the employees' Illinois Municipal Retirement fund. That leaves us with \$66,000."

Rich said the city can expect \$40,000 to \$45,000 from sales tax

and \$12,000 to \$16,000 from state income tax during June, but that it is unlikely the amounts will be received.

The council met on the transfer funds for the June 15 payroll, and "I will not sign a check until I see the money."

It also has been brought out the bank has legal advice that the mayor's signature is necessary on the tax warrant to make it a legal document. The council has discussed giving that authority to another official—possibly the chairman of the Finance committee.

Aldermen Protests

When the ordinance for the \$50 monthly increase for the officers was presented, Alderman Morten, former Finance committee chairman, commented that he was voting "no" on the ordinance which would cost \$300,000 in debt, and that income from borrowing would cost the taxpayer the 9% interest.

"I'm thinking of the 1300 elderly citizens in this town with fixed incomes. Sales tax has gone up, a state income tax has been added, and with the elimination of the personal property tax other taxes won't make up the difference, and we'll have less money."

Moerlen continued, "We have the highest paid labor in the city. People are leaving industry to work at the city for less pay. It's a disgrace to the city. People are leaving industry to work at the city for less pay. It's a disgrace to the city. People are leaving industry to work at the city for less pay. It's a disgrace to the city."

It was 10:15 p.m. and Nomm

Moerlen was still talking.

Critical of the business operations of the city, he said that with such poorly handled operations, it was a disgrace to the city if it were a private industry.

He was forecasting an increase in the 90-cent monthly sewage treatment fee, when Parmley left for work at 10:17. Jarrett had departed much earlier.

"Too Late"—Whitmer

"The city should have closed the door last year, but went along with \$75 monthly increase and commitment for \$50 this year. There's where the cow got out of the barn. There's no use closing the door now."

The council then went on to transfer \$32,500 from the state income tax reserve to the following funds: Fire department, \$787; Police fund, \$519; city hall, \$686; police department, \$837; sanitation department, \$845; dog catching, \$85; school crossing guards, \$130; maintenance of sewers, \$191; parking meter, \$102.

On the bright side, Mayor Partney reported a donation of about \$100 to the city for construction of a fence around the annual shelter building to protect it from vandals and thieves. He said the donor was a woman, but did not disclose her name.

Mecca Urges 'Moratorium' On Highway Fund Freeze

A suggestion that the U. S. government lift the highway fund freeze for one year, which those involved attempt to negotiate a solution to the problem and employment on highway construction jobs. Association members said they believe the problem of getting jobs for more blacks is the more serious of the two points and that the government might be willing to forget the high cost problem if all other matters were settled.

Yeates pointed out that the freeze was intended to put pressure on unions and contractors, but the plan is not working. There now are 11,500 persons working on highway jobs compared to 800 in 1968 when the freeze was initiated, so the unions apparently are "not hurting," Yeates said.

The Chamber of Commerce association members who met Monday night in the Rose Bowl arena, agreed to devote all of their time to the highway freeze problem.

Mecca Urges 'Moratorium'

Mecca organization has been pressing for an end to the freeze which was imposed by the federal government in July 1968 because it felt construction was ailing in the Madison and St. Clair county area, the only section in

New Grand Jury Impaneled in Court
A new Madison county grand jury was impaneled Monday by Chief Circuit Judge Joseph J. Barr in circuit court at Edwadsville.

Among the 22 members sworn in by Willard V. Portell, circuit clerk, were Alex. Duccini and Stella Hogue of Granite City and Margaret Painter of Venice. The foreman is John Strickland of Alton.

The teachers are contracting with parents with pre-school aged children (must be five years old by Dec. 31) during this week and next. Parents wanting to enroll may phone the area director, Gary Pfroender at 877-4040.

Eight tickets also remain for the Red Skelton Show on Saturday, June 27, and several tickets also are available for productions in the Muny Opera's regular season which starts July 6, the park official said.

Man Fined \$25, Costs
Roy Wiggins, 50, of 2145 State street, was arrested at his home at 3:20 p.m. Monday on a peace disturbance charge. He was fined \$25 plus \$10 costs.

The board also agreed to work out details and meet later with The Parents Committee for Special Education concerning a request for use of school facilities to maintain a summer period visual motor perception therapy program which also is

tally handicapped because of its proximity to the business district, the library and other school facilities. He said recreation can be conducted within the "Y" building and food service can be obtained at Central junior high school.

Grants Continuance
Judge Maey's granted a request by John Sprague, one of the levee board attorneys, for a continuance despite objections by Kenneth Juen, assistant state's attorney of St. Cl.

Shriner Circus Here Next Week to Feature Top Acts

Outstanding acts of the Shrine Circus sponsored by the Ainsel Temple will perform at the Tri-City Speedway on June 3 and 4th at 8 p.m. and June 4th at 4 p.m. The parade will include the "Sensational Leights," Paul Kelly's elephants, Kase's Bears and Chester "Bobo" Barnett, America's Clown Prince.

The Leighs, a husband and wife team, perform on one of the strongest devices ever created, known as "The Giant Wheel." The only movement on this unique rigging will come as a result of the movements and actions of the two aerialists, as they propel the loop swing without aid of motors or hidden wires.

Paul Kelly's elephants represent the largest herd of trained Asian elephants ever performed in this country. They have worked together so many years they can be relied on in innumerable combinations so that sometimes they are working in groups of three, other times in fives and a complete group of 11 animals.

Potential Edward G. Maag of Ainsel Temple said the parade to open the circus is planned in Granite City for Tuesday, June 2, at 8 p.m. and will include 15 old fashioned circus wagons as well as the Marching Units of Ainsel and Moolah Temples.

The show itself has 22 displays.

Gargac Named Head Of Bi-County Group

The Bi-County Parents Group for Deaf and Hard of Hearing Children held a family potluck supper and election of officers Tuesday evening in the cafeteria at the Union School in Belleville.

Re-elected president was Steve Gargac of Granite City, and other elected officers are: vice-president, Mrs. Charles Grote of Granite City; and Mrs. Linda Motley of Alton. Mrs. J. Dittich of Granite City is presently serving a two-year term as treasurer.

A special program was presented by students and their work was displayed. Miss Carol Byrd, ways and means chairman of Beta Sigma Phi, Theta Sigma Phi, Chapter, in East St. Louis, presented Gargac a check for \$300 to purchase needed equipment for the oral deaf class rooms. The check represented proceeds from the sorority's recent "celebrity auction."

Winners in the "Bond Sales" project were Marilyn Dill, Susan Hansen, Elsie Siewert, Steve Tarasovich and Tony Sedlack. Plans were discussed for attending the Shriner Circus, and to hold a family picnic at Cahokia Mounds state park in August. The group plans to meet in the 1970-71 school year in the Granite City district.

School District Insurance Plan Contract Awarded

Granite City school board members debated at Monday night over the sufficiency of student coverage in insurance programs offered by four bidding agencies, then awarded the 1970-71 year insurance contract to the same firm that has had it for the past two years with the understanding that an intensive study of insurance problems be made within the next year.

The board awarded to McEvilly & Co. of East St. Louis following discussion in which Board Member Monroe Worthen remarked that he did not believe the district had a fully adequate insurance plan in any of five insurance programs offered by the bidders. One of the bidding firms, Hargraves Insurance Agency, submitted two separate plans.

Board members discussed at length the insurance plan in students participating in football and soccer activities must take additional coverage because regular student policies do not cover these sports. Dale C. Rea, assistant to the superintendent, told the board that while none of the plans submitted "have all the features desired," the most advantageous to the students of the district.

He said the premium to the McEvilly Co. for 24-hour coverage at the secondary level is considerably less than the other bids and that the McEvilly offer provided good physician coverage since no dollar limit is applicable when received in a hospital. This plan also clearly states death and disability benefits payable in addition to medical benefits and provides \$15 benefit for heat exhaustion cases which are not covered in the other offers.

Rea said the variation in coverage provided in the different insurance plans caused board members to point out that many problems arise each year concerning coverage for students and employees and that a complete investigation into the insurance problem, with a view toward securing a well-rounded program of coverage, should be undertaken.

A suggestion that award of the insurance contract Monday night should be held up until the matter could be looked into further was rejected. Rea said that the insurance firm must know ahead of time what coverage it is to extend. Rea said that a decision on the insurance issue until July or August would not give the selected company enough time to process new policies and institute coverage for the new school year.

MORE ABOUT County to

tricting would be taken over by a five-member commission composed of the county clerk, state attorney, a representative of the office of the state attorney general and the chairmen of the two political parties.

"We don't want that," he said. The decision of the board is not final and will not be until a redistrict map is filed with the county clerk.

When asked if the board would await results of the 1970 census promised by the first of the year, Briggs said, "We can't take a chance on that, but the Southwest Illinois Metropolitan Area Plan Commission has a fairly accurate population picture of the county."

Under the district, rather than the township system, some rural township supervisors will lose their jobs on the county board, it was agreed, but many of them approved the plan.

would be null and void." Nonn commented.

Scroggins said, "Not as long as the ordinance is there."

Alderman Parley commented, "We can rescind that ordinance and abolish the job."

The 30-day reappointments of Mrs. Hall and Mrs. Buttry as police desk clerks were protested by Alderman Moerlein on points of order. "The council has never created the positions. That was done by the mayor, and he has no authority."

The mayor did not reply. Later in the meeting, Moerlein called for the salaries of the two women to be eliminated from the payroll and not be paid. His motion was approved.

Mrs. Hall and Mrs. Buttry were appointed to the jobs by Mayor Partney on Feb. 1. They have not been paid for March, April and May, and have filed suit against the city in the small claims court. A hearing is set for next month.

Accepted by the council was the resignation of Police Patrolman Peter Handleton, effective May 31. He has been on the department three years. Police Chief Vetter said Handleton plans to become a truck driver.

Three new "capped" seniors, Ruth Bird, Kitty Chapline and Karen Lee presented Mrs. Davis gifts in appreciation for her leadership during their cadette scouting. A rededication was conducted by the cadettes and juniors as they renewed

Five Coaches To be Added To GC Staffs

An increase in the coaching staff in the Granite City school system was approved Monday night by the board of education on the recommendation of Joseph S. Fedora, athletic director.

An additional coach will be added to the track and baseball programs at Granite City high school and to the football programs at the three junior high schools.

Funds are to be budgeted for the added junior high coaches, but a survey of the need will be made early in September, and if shown, the coaches will be appointed at that time.

The track and baseball staffs at the high school currently contain three coaches each. Fedora noted that this year's track squad contained more than 80 participants, and coupled with the various events prevalent in the track program, a less than adequate relationship between coach and student has resulted.

The baseball program has operated with three coaches since about 1961, and the program has been expanded, becoming one of the more successful and recognized programs throughout the state, the director said.

During the period, he added, the school has fielded sophomore baseball squads of 50 or more boys, all supervised by one coach. This has proved to be inadequate and has often resulted in boys losing interest in the program, due to the lack of coaching personnel available to meet the needs of these boys as to individual assistance and instruction, he said.

The second year of varsity tennis at Madison is completed, six Trojans will receive letters, Coach Roger Benway has announced.

The oldest team member, Junior Larry Lassen earned his second letter. Other second year lettermen are sophomores Bill Fox, Bob Mangoff, Curt Bosworth and Bob Hollenbeck.

Bill Weidner is the only freshman to letter this season.

With an enlarged schedule this spring MHS was winless in 10 team outings. Gradual improvement has been recorded this second season in a greater number of match wins.

His auto chassis was built by A. J. Watson. Watson built Al Unser's Indy 500 car which is the fastest qualifier this year and has earned the pole starting position.

With Spalding and Bill Utz also have cars newly built this season.

Jerry Blundy, who last week chauffeured to a third place at the Little 500, will have his regular ride here to compete with all the new machines.

Of the 33 cars to start the Little 500, Jimmy Moughan's was one of the nine cars to finish the endurance run. He will drive Spalding's former ride here.

Ed Lovett of Kansas City showed up for last week's rain-out. He commented on the excellent condition that grounds maintenance men are currently keeping the local half-mile dirt oval and intends to return tomorrow.

Three years ago Lovett was a Tri-City Speedway regular but the poorly kept track then caused him and others to cease coming here.

With the especially high caliber of racers expected tomorrow, it's difficult to name a favorite. But the top reputation belongs to Bobby Jones.

Friday is an open night on the Jones' busy schedule and he plans to race here on the way to somewhere else Saturday.

Last Sunday he won the feature at the Springfield, Ill., track. Saturday he swept a race in Ohio which cleared him \$1000. He is currently the International Motor Contest Association points leader.

Ronny Perkins, with his capable showing at the Little 500, has earned an apparent steady ride in a new car owned by Speedway Motors of Lincoln, Neb. Ronny's former car is owned by his father, Bobby Perkins, of Granite City.

Tom Rushing from Florissant, Mo., will be here with another

BEST COUGAR ATHLETES who were honored Monday night at the second annual Intercollegiate Athletic Awards banquet of Southern Illinois University-Southwestern. They are left to right, Tom Howe, St. Louis, soccer, most valuable; Gus Schalkham, Granite City, "Athlete of the Year" and most valuable wrestler; and Bruce Ferry, Belleville, cross country, most valuable; and back row, Bernie Pitts, Alton, basketball, most valuable; Tom Kammann, Belleville, golf, most valuable; John Bohnenstiel, Granite City, track and field, most valuable; and Bruce Thompson, Granite City, baseball pitcher, most valuable.

Six Trojans Letter In Varsity Tennis

As the second year of varsity tennis at Madison is completed, six Trojans will receive letters, Coach Roger Benway has announced.

The oldest team member, Junior Larry Lassen earned his second letter. Other second year lettermen are sophomores Bill Fox, Bob Mangoff, Curt Bosworth and Bob Hollenbeck.

Bill Weidner is the only freshman to letter this season.

With an enlarged schedule this spring MHS was winless in 10 team outings. Gradual improvement has been recorded this second season in a greater number of match wins.

Gus Schalkham Selected Cougar Athlete of Year

Granite City's Gus Schalkham, a three sport athlete, was named the Athlete of the Year at the Southern Illinois University-Southwestern's second annual intercollegiate athletic banquet Monday night on the campus.

Ace pitcher Bruce Thompson and versatile track and field man John Bohnenstiel, also of Granite City, and Schalkham in wrestling were honored as the most valuable in their particular sports.

Other individual most valuable honors went to: Tom Howe of St. Louis in soccer; Bruce Ferry, Belleville, cross country; Bernie Pitts, Alton, basketball; Dan Weaver, Alton, baseball fielder; and Tom Kammann, Belleville, golf.

Granite City high school graduate Schalkham lettered this year as a junior in cross country, track and field and wrestling.

The slightly built Schalkham holds four SIU-SW cross country records: four miles on the road

in 20:40, five miles in 27:20, ten miles in 54:30 and twenty miles in 1:17:18. Last summer he became the first known teenager to run 100 miles in less than 24 hours on a route in the Quad-Cities.

During the wrestling season he logged an 8-1 match record. Ed Macauley, former basketball pro star and TV sports announcer, was the principle speaker at the banquet. He concluded, "It is nothing short of amazing that SIU-SW teams could have won three NCAA post season tournaments in their first year of eligibility."

The Cougars went to golf, soccer and baseball postseason tournaments.

Most valuable athletes in particular sports are chosen by vote of the players in each sport. The Athlete of the Year is selected by a panel of coaches and the 30-member intercollegiate athletic committee headed by Dean Wiley, dean of the educational division.

Mercer Hosts Bellemore In Inter-City League

Mercer will host its winless cross-town rival Bellemore Sporting at Wilson park at 2:30 p.m. Sunday. The rest of the inter-city baseball league slate will send Collinsville to Maryville and Highland to East Alton.

From the view of the early season standings the "Haves" will be waiting at home for challenges from the "Have-Nots." East Alton, Maryville and Mercer rank one, two and three with winning records. Collinsville, Highland and Bellemore Sporting rest in the lower half of the standings with losing records.

Only a weak line divides the Haves from the Have-Nots. Weekend results could even the records of three teams.

Collinsville A Have-Not? Collinsville will be trying to rise above its drastic slump. The Motormen, the six-year defending champions, have been beaten by three different teams. The Motormen have taken

their two victories from Mercer. Mercer nearly overtook Collinsville in the pennant race last year but again this year an apparent jinx exists between the two clubs. Mercer has beaten all other comers.

Despite the game results so far, predictions are that Collinsville may still be the team to beat in just a few more weeks. The visit to Maryville Sunday could be a barometer for testing the Motormen's potential for rising back to power. They were blanked by the Maryville Braves earlier this season, 5-0.

Hummer A Downfall Last week, Collinsville led East Alton 7-6 going into the game's last out when Machinist's Manager Lee Davis whipped a two-run homer to set back the Motormen 8-7.

Also last week Bellemore bowed to Highland in the 11th inning 11-10. Mercer knocked Maryville from its tie for first in the standings beating the Braves 3-1.

Mercer has beaten Bellemore Sporting in late April, 8-1. Bellemore will probably start Steve Conway on the mound. He has the fifth best ERA in the league (3.07). Maryville's Kevin Galt leads the pitching races with an 0.57; teammate Jim Knop is second with 1.65.

Highland's best moundman Jack Foehner has mounted a 1.68 ERA. Machinist Jim Blackledge takes a 2.01. Conway is the only one in the top five with a losing record.

Local standings: East Alton 5-1, Maryville 4-2, Mercer 3-2, Collinsville 2-3, Highland 2-3 and Bellemore Sporting 0-5.

Clark's broke a 5-5 tie ball game in the fifth frame, using Jim Smith's single, Bill Brown's double and Dave Wilson's two RBI single.

VW out hit Miles 19-10. Norvell Baker and Gus Schalkham each batted four-for-four, including a triple for W&W.

Coachlitters matched Jacobsmeier's in the hit department a search totaled 19. Jacobsmeiers made better use of its sluggers in the beginning three innings, notching 11 runs on 11 hits to lead 11-5. Gary Rideout paced the winners with four hits, including a double and triple.

Warriors on to State, Win Sectional Thriller in 11th, 3-2

Granite City PRESS-RECORD
Thurs., May 28, 1970 Page 9

Granite City high school's baseball Warriors under Head Coach-Gale Garbe earned one of the eight berths in next week's state tournament by edging Staunton for the Springfield sectional championship, 3-2, in 11 innings yesterday.

Warrior Bill Parks' single, sent Gary Willis home with the winning run.

In the sectional semifinals Tuesday, the Warriors shocked Springfield Southeast as Jim Greenwald clobbered a two-out, two-run homer in the top of the last inning to lift GCHS over Southeast 2-1.

Staunton beat Pittsfield in the other semifinal Monday, 1-0.

Granite City will take a 17-game winning streak to the state tournament at Peoria next Thursday and Friday, June 4-5. GCHS will face the Chicago city champion in the state tournament quarterfinals Thursday.

Now with a 26-6 record for the season the Warriors left their sectional opponents, Staunton and Southeast, each with 15-4 logs.

Boyles Hurls
Acting as home team by the flip of a coin, Warriors' Jeff Boyles started on the hill. Boyles, highly reputed in this area for the second year as an ace hurler, had to make first inning adjustments as he discovered what corners of the plate the umpire would accept as strikes.

He allowed a walk, a fielder's choice that forced the runner at second and a steal to leave a runner on second. An RBI single came before Boyles could get out of the inning.

In the bottom of the first, the Warriors went down one, two, three, facing Staunton's top pitcher Dennis Smiley. GCHS was later to hand Smiley his first loss in 12 outings.

Staunton left runners on first and second in the second frame, employing a single and a base on balls. The initial out of the frame was a bouncer to Boyles; he fanned batters for the other two outs.

Clear up batter Greenwald led off the bottom of the second, socking the first pitch served to him high into center field territory untouched by Staunton fielders.

Slides Into Second
The brawny Greenwald rounded first base without hesitation on Asst. Coach John Modica's signal and slide into second base as a high throw arrived.

Gary Stutch followed at the plate and walked on a 3-2 count. Willis slapped an infield fielder's choice forcing Greenwald at third.

Jerry Monahan bounced out but advanced the runners to second and third.

Parks singled through the dirt near short for two runs, and GCHS took a 2-1 lead.

Staunton put runners on base during every inning of regulation play and left runners on base in all but the sixth.

Rich Schardan and Dave Evans collected hits in the third inning but Granite City didn't capitalize. Granite City runners were also left on base in the fifth and the sixth.

The score remained 2-1 as the contest entered the seventh inning.

Staunton, with two out, began to build what appeared to be a rally disastrously similar to the Warriors sectional semifinal win.

Staunton Ties Game
Staunton registered a single, followed by an RBI double to tie the game 2-2. The next batter bounced out to Warrior second baseman Don Harris.

Schardan singled to center after two outs for a weak threat by Granite City in the last portion of regulation play. A fly caught at second base gave Staunton an extra inning chance.

A pinch hitting effort by the Warriors relieved Boyles of pitching duties, and Ron "Deacon" Simpson took the hill. Boyles had given up five hits, eight walks, and two runs while whiffing six.

Simpson's first serve was a change up, low and outside, that left the Staunton batter spinning. It unraveled tense GCHS players and fans for a pleasant moment, followed by the Staunton side being cleared one, two, three popping and bouncing out.

Staunton used a single, a fielder's choice, a walk and a hit batsman to lead the bases with two outs in the ninth. Warrior left-handed hurler Ned Tapp was warming up in the bullpen.

Ball Hits Runner
The plaques are on the mound. The next Staunton batter made a change up, low and outside, that left the Staunton batter spinning. It unraveled tense GCHS players and fans for a pleasant moment, followed by the Staunton side being cleared one, two, three popping and bouncing out.

Parks led off the Warrior City's 11th. Monahan powered a double, putting Willis on third.

Parks, on a three-and-two pitch, drove a grounder off the third baseman's glove as the fielder made an unsuccessful drive, and Willis crossed the plate.

Greenwald kept the Warriors alive in the series when he blasted a two-run homer with two out in the seventh inning to wrap up a tightly pitched game.

Ed Hagnauer, undefeated in seven outings, put his record against Southeast's Bob Benedict's 6-0 mark and the Tuesday game went scoreless until the bottom of the sixth.

WARRIORS TO STATE. With an 11th inning win to take the Springfield sectional championship, Warriors happily pose at home plate with their trophy. Front row, left to right, Bill Parks, Ron Simpson, Steve Arbeiter, Jerry Monahan, Don Harris, Mike Watson and Phil Scheridan. Second row,

Rich Schardan, Head Coach Gale Garbe, Ed Hagnauer, Dennis Kunneman, Ned Tapp, Gary Willis, Mike DeRuntz, Dave Evans, John Ireland, James Greenwald, Jeff Boyles, Gary Stutch and Assistant Coach John Modica.

he are dirt to avoid being the tenth. Two bounce outs and struck but he was hit on his shoulder blade and Granite City escaped the inning keeping the score tied.

Andria Edges Pieper in East Classic Play

Hook's, Midtown, "A" Win 35 & Over Games

Hook's trampled American Legion 28-2, Midtown Pharmacy topped Jacobmeyers 12-10 and Quad City "A" edged Hunters Cove 18-17 in Junior Pool-35 & Over league softball at Wilson park Monday.

Jeff Boyles relieved Hagnauer after one out in the sixth with men on second and third to pitch the Warriors out of trouble but a run had already scored.

As Granite City entered what could have been its last half inning this year, only Monahan and Greenwald had touched the Southeast hurler for hits.

But with one out in the seventh, Rich Schardan gained first base for the Warriors on an error. Dave Evans hit into a fielder's choice for the second out of the inning.

Greenwald went to the plate and pounded a home run over the 340-foot mark on the fence for the tying and winning runs.

SW League Can Grow--Coaches

The Southwestern prep athletic conference approved a constitutional amendment which allows the league to expand to more than its traditional seven members, at a meeting at Belleville-West high school Monday afternoon.

The expansion amendment was approved with a 12-0 vote, two votes for each school. Principal Lawrence McCauley and Athletic Director Joe Fedora cast Granite City high school's ballots.

Wood River abstained from the voting. The Oilers will withdraw from the Southwestern loop to join a new conference after the 1970-71 school year. New memberships, if accepted, would not be in effect until the 1971-72 seasons.

The league has set a special meeting for June 24 primarily to discuss mechanics of accepting new members. Belleville-East, East St. Louis Lincoln and Cahokia have requested to join the circuit but action on their membership is not expected at the June meeting.

Another amendment approved at the meeting will allow the league to be more flexible in determining rules for specific league contests. No rules changes were made. The new flexibility was attained by changing rules sections of the constitution into by-laws.

Fedora proposed presentation of small plaques to head coaches of league championship teams. His proposal was unanimously passed.

The plaques are to be inexpensive and are meant to be mementoes, beginning with the 1970-71 season.

Belleville-West was officially named to receive the All-Sports trophy. The Maroons totaled 45 All-Sports points; Granite City had the second highest total of 43.

School Policy to Require Annual Teacher Contract

A school district policy under which first-year teachers who are recommended for continued employment shall be issued a contract of employment for the following year was adopted by the Granite City school board Monday night.

The policy as submitted to the board by School Superintendent B. J. Davis provides the contract shall be issued prior to the close of the second semester of the then current school year.

It provides also that first year teachers who are not recommended for continued employment shall be notified not later than 60 days prior to the close of the school year.

The form of a "contract of employment" which Davis said embodies only terms that already are in the teachers' contract and requirements already established by state law, also was approved by the board.

Bills Approver said the board approved bills of \$10,846 against the educational fund, \$6349 against the building fund, \$2387 against the general fund, \$2230 against Construction Fund No. 2, and \$32,650 against the Transportation fund.

On the basis of low bids, the board approved purchases of \$139 in nurses' supplies and \$192 in athletic training supplies from five bidders. They approved purchase of \$16,280 worth of varying items of audio visual supplies and equipment from 12 different bidding firms.

During a business session, members voted to unify with the Illinois and National Education Associations and the district personnel, Miss Shirley Loy, vocalist and Mrs. Valerie Stevens, pianist.

Miss Barker announced an executive board meeting will take place Monday, with new officers to arrange a program agenda for 1970-71. The local association will hold its next quarterly meeting in September.

Buy Other Supplies
Paper supplies, varying items totalling \$11,530 from two bidders; eye protection equipment, total of \$684 from five classifications of supplies, with new bids to be called on two other items; kitchen equipment, purchase of electric serving counter and oven from Peerless Hotel Supplies at low bid of \$995; 10 trays, Peerless Hotel Supplies on low bid of \$648.

A bid by Honeywell, Inc. in the amount of \$20,402 for restoration of the temperature control systems in the academic and vocational wings of the high school was accepted by the board upon recommendation by Huebner. Total prices for five phases of restoration work ranged from the low price submitted by Honeywell, Inc. to a total price of \$194,000.

A low bid of \$554 for replacement of leaking radiators in the high school building by the Tri-City Heating and Air Conditioning Co. was approved. The bid was the lowest of five.

The USO and its affiliated groups — YMCA, National Catholic Community Service, National Jewish Welfare Board, YMCA, Travelers Aid Association and the Salvation Army, provide morale, recreational and assistance to servicemen and women throughout the world. Miss Barker Elected President of GCEA

Miss Marguerite Barker, a teacher at Niedringhaus elementary school, was elected and installed Monday afternoon as president of the Granite City Educational Association. She succeeds James Harmon, a Grigsby JHS mathematics instructor.

Council Orders Close Watch on Sick Leave Costs

Two-week sick leave payments totaling \$1718 brought out a lengthy discussion at Monday night's Granite City Council session, but aldermen proceeded to approve the amount along with a \$7.70 half-month payroll and a week's bill list amounting to \$22,896.

The major item on the bill list was \$15,040 paid to Milan Corp., East, for garbage and trash pickup during May.

Several aldermen called for a crackdown on "abuse of sick leave." Nonn remarked, "If this keeps up we may have to go to a three-day clause in the sick leave policy." He called for comments from a union representative in the audience. No comment was made.

Department heads were instructed to keep close watch on sick leave costs.

Salaries for the two women serving at the police station desk again were excluded from the payroll, and a payment of \$33 to Midtown Pharmacy, a drug store operated by Alderman Schuler, was removed from the bill list. The \$33 payment was made instead to William Paterson, injured fireman, for prescriptions and equipment.

Schuler said Paterson had paid cash for the purchases, and that he did not know the amount was to be paid by the city.

Insurance policies were approved by the council, with \$738 premium for workers' compensation with the Aetna Co. Owners liability insurance coverage will be by the E. J. Miller Co. with \$270 premium. The same firm submitted the lone bid for the securities loss policy with premium of \$674. Insurance on city street department equipment will be carried by Kaegel Insurance Co. with a premium of \$875.

A mix-up in figures on employee group hospitalization and insurance resulted Tuesday in cancellation of Monday night's council action in awarding a contract. Bids were received from four firms.

Schuler said the Finance committee is to review the figures this evening.

Referred to committee for consultation with the Jaycees was a \$43 bid from E. J. Miller Co. for a policy on the city-owned building at 1838 Poplar street, which is leased by the Jaycees.

Approval was given April financial reports for special sewer funds and sewage treatment plant funds.

The various balances on April 30 were—Nameoki area sewerage, \$320,739; special sewer construction, \$406; Nameoki area sewer lines reserve, \$204,115; Nameoki Area 2 sewerage, \$101,085; Nameoki sewer extension, \$17,205; sewage treatment plant, \$403,685; treatment plant construction, \$121,454; North Granite Area 3 construction, \$41,347; Area 3 sewerage, \$14,046.

Alderman Whitmer asked again for the Finance committee to review the need for new parking meters, with the present 21-year-old meters to be replaced with tamper-proof models.

He also asked that \$17,500 be set up in the new budget for air pollution control. The figure has been proposed at \$7000.

MEMORIAL DAY

MAY 30, 1970

One Day—Each Year.....

One date, May 30, is set aside on the nation's calendar as Memorial Day.

It is a day when hundreds gather at National memorial shrines and fewer numbers in small and large communities across the land stand silently near bronze and stone markers to remember the men who gave their lives for all Americans.

In thousands of homes and hearts, the remembrance of those men—the fathers, sons, husbands, brothers—who lost their lives in the service of this country is a daily memory—not one confined to an annual observance.

At Arlington National Cemetery, before the Tomb of the Unknowns, the single sentry stands constant guard, not just one day, but every day and night, as the symbol of our tribute to America's war dead.

Tribute to Quad-City men killed in all wars will be accorded in Memorial Day services and observances in this community. Special significance again will be placed on the 34 Quad-City servicemen who have died since December 1965 as a result of the war in Vietnam.

U. S. battlefield deaths in Vietnam now total 42,118 Americans killed. Coupled with 7949 non-combat deaths, the death toll for the war in Southeast Asia has now risen to 50,067. Total U. S. casualties in Vietnam, wounded and killed, are nearing the 380,000 mark.

Memorial Day is a patriotic day, but also a day of reverence and reflection. In paying tribute to the last measure of devotion of those who died, all salute them because they placed peace with honor for all men above life itself.

Nameoki Town Board Debates Drainage, Bills

Little satisfaction was gained by residents of the Nameoki Estates area who attended Monday night's meeting of the Nameoki town board to air complaints on drainage problems. It was the second consecutive meeting for several individuals who raised questions regarding flood conditions and poorly maintained roads in their neighborhoods.

Another issue before the town board related to non-payment of bills incurred by the township highway department and also resulted in a lengthy discussion. Queries which implied that the town board refused to approve bills submitted by Highway Commissioner Charles Hanks were hotly denied by board members.

At the May 11 meeting, in reply to the same individuals, Hanks said the area had not yet been accepted into the township's road maintenance system and responsibility for repairs lay with the subdivision's developers. At the earlier session, Hanks also offered to take a petition signed by residents to the county board to force the subdivision to take action.

This week, Whitsett produced an agreement accepted Snowbird and Bluebird lanes and Nightingale court, all located in the second addition to Parkview Estates. The copy was signed by Hanks and dated September 1966.

The town clerk also displayed a copy of a communication from the subdivision's developers demanding that "appropriate action be taken." It further stated that the township authority would be directed to file suit if the repairs were not made. The letter was dated Sept. 26, 1968.

New Method
Whitsett said, "Since Mr. Briggs informed me that he is supposed to present the bills to the board, I no longer see them. It is his right by law to handle township bills, and we cannot do anything about payment unless the bills are presented to us." He said the new method of handling bills started about a month ago.

Those interested in payment, questioned whether the board's previous position on the high-

GC Council Awards Contract To Correct 'Uphill' Drainage

A contract to remove about 100 feet of uphill drainage line on the south side of Pontoon road between Village lane and Stearns avenue was awarded Monday night by Granite City council members.

The low bidder was A.H. Seebold Co. with \$3.85 per foot, compared to a \$4 bid by G.H. Sternberg Co. The contract calls for removal of the 24-inch line and for grading for a proper flow of surface water to the line leading to the Nameoki area storm water drainage ditch.

Discovery of the uphill line was announced to the council last week by John A. Defford, president of the Granite City Village Apartments along Village lane south of Pontoon road. Defford said correction of the defective line should afford proper drainage for his development.

Develops Complaints
Defford sent to the council this week a copy of a notice he has sent last week to William Ebersold, levee district trustee, asking that the district halt the pumping of surplus water from Dobey along onto the Village Apartments property.

The developer said damages were being incurred, and unless the pumping was stopped immediately, damages would be sought.

Proper drainage also is needed along the new drainage channels along East 23rd street and along Nameoki road, where washouts are occurring and threatening damage to paved channels.

Alderman Paul Rutledge, chairman of the Special Sewer committee, said the problem had been studied by both the city and the project engineer, and that the work needed to correct the underdrains would cost about \$400.

Responsibility for the construction of drains along the paved ditches rests with the city, Rutledge said he was advised. He suggested the present washouts be filled and seeded and that the matter should be handled by the Street committee.

2 Insect Sprayers

Authorization was given Street Supt. Warfield to fill a laborer vacancy on his 25-man department and to hire a temporary employee to operate the city's second insect fogging machine. One machine is in operation now and the second will be placed in service once additional chemicals are delivered, Warfield said.

Warfield pointed out most of his men continue to be tied up with work at the sewer breaks—manning pumps and clearing lines.

An ordinance is to be prepared to prohibit parking along the old ITR right-of-way in East Granite. Alderman Rutledge asked City Atty. Scroggins to determine precise ownership of the old trolley right-of-way. He pointed out the area is being used as a dump for derelict cars and trash and residents along East 27th street are complaining.

More complaints on rough railroad crossings were voiced by several aldermen. Scroggins said he would have a petition prepared by next week for a hearing before the Illinois Commerce Commission.

A proposal was given for street widening and drainage in the Third Addition to Wilson Park Estates, and authorization was given for Mr. and Mrs. Leonard Walker, 3257 Rodger avenue, to break a curb to park their auto off the street.

On recommendation by Scroggins, the council voted to pay \$40 for damage to a fence at the home of Cecil Simpson, 2531 Sutton avenue. The fence was struck by a police car that had been involved in an accident with another car on July 27, 1968.

The city entered a contract with Illinois Power Co. to provide electricity for traffic lights at Route 151 and West 20th street.

Children Playing Near Fogger Create Hazard

Cooperation by parents in preventing youngsters from riding bicycles and playing in the vicinity of mosquito fogging equipment now being operated in Nameoki township was urged Monday evening by Town Auditor Robert Beedle.

The official said that concern for the safety of the children who dart in and out of the fogging machine operator.

"The kids follow the equipment around the neighborhoods and we are afraid one will get injured," Beedle said. He noted that a child playing near the fogging machine was injured last year and urged motorists

to reduce speed when approaching the vehicle, which is now equipped with warning lights.

Beedle said the chemical being used this year is melonine, the only mosquito abatement chemical recommended by state public health authorities and the University of Illinois.

Only one truck is in operation so far this spring, the auditor said, noting that Nameoki township has a second fogger but is without a vehicle to carry the equipment. Two machines operated last year.

Eastern Illinois University at Charleston appears to be heading toward another record-breaking summer enrollment. A report by the records office shows that the number of readmission applications is 801, compared to 408 at about the same time last year. Active applications from new freshmen and transfer students are also up from 879 to 1022, an approximate 16% increase. Dr. Samuel Taber, acting dean, Student Academic Services, said that the number of continuing students (those enrolled in the current spring quarter) who have pre-registered for the summer quarter is also higher than at a comparable period last year. Last summer's enrollment in the 10-week summer undergraduate summer term was 4038.

Medical Student Aid Bill Goes to House 452 Youngsters Compete In GC Jr. Sports Meet

The Illinois Senate has approved by a vote of 42 to 0 a bill exempting the interest rate limitation on loans made to medical students in Illinois to a presentation in its behalf was made by State Sen. Alan J. Dixon of Belleville. Sen. Dixon and State Sen. Egbert B. Green (R-Pekin) are sponsors, and the bill is supported by the American Medical Association education and research program. The bill now goes to the House for action. It was pointed out that the loans made by students to complete their medical education need not be repaid until after that student has received his doctorate and is in the actual practice of medicine. "There is currently an estimated shortage of 7000 doctors in Illinois," Sen. Dixon said. Banks feels it burdensome to handle such student loans with the interest rate limitation, the senator said.

A total of 452 youngsters between the ages of ten and 15 years participated in the "District Junior Sports Jamboree," held Saturday at Granite City and high school athletic field. The local track and field meet was sponsored by the Granite City Jaycees. Five youthful contestants emerged from the day-long meet as doubles champions, winning first place awards in two individual events. One youth also added a relay team victory to his pair of blue ribbons. Double first place winners were Dale Williams, 50-yard dash, long jump and relay event and Dennis Cruse, 800-yard run and baseball throw both in the intermediate division; Cindy Arnold, 90-yard dash and baseball throw, intermediates; and Jerry Sedabres and Luann Nolan, both winning the 50-yard dash and long jump events in the junior division. The five double champions along with other first place winners will advance to sectional competition in Alton, scheduled for July 18, with sectional winners competing at the Illinois Junior Sports Jamboree state-wide meet, to be co-sponsored in August by the Pekin Jaycee chapter and the Illinois Youth Commission at Pekin. Local Jaycee Stan Brown, who served as Jamboree chairman, announced today the names of all winning contestants in the Granite City meet. Intermediate division (14-15) winners: 800-yard run—Dennis Cruse; 50-yard dash—Dale Williams; 100-yard dash—Larry Haddix; 220-yard dash—Debbie Wright; Denny Sedabres; high jump—Nelson Provance; Cherry Sharp; long jump—Connie Lindsey and Dale Williams; baseball throw—Cindy Arnold and Dennis Cruse; 440-yard relay team members—Dale Williams, Mike Martinez, Denny Sedabres and Larry Haddix; and Debbie Wright, Pam Clay, Sandy Stein and Bobbie LaMew. Junior division (12-13) winners: 50-yard dash—Jerry Sedabres and Luann Nolan; 75-yard dash—Shelly Boyd and Sonny Hawkins; 100-yard dash—Robin De-terding (girls); high jump—Keith Asher and Pam Brokaw; long jump—Luann Nolan and Jerry Sedabres; baseball throw—Greg Terrell and Robin Hayden; 440-yard relay winners—Brenda Long, Shelly Boyd, Kathy Cross and Paula Williams, and Keith Asher, Greg Gaudin, Tom Schooley and Allen Sunderlik. Gun Rules, Penalties Outlined at SIU-SW

Unauthorized possession of firearms or other dangerous weapons by anyone on the Southern Illinois University-Southwestern campus will result in severe penalties, Chancellor John S. Rendleman has announced.

The Faculty Senate is now studying proposals on internal university policy in keeping with Public Act 76-1381, adopted by the Illinois legislature Sept. 28, 1969, which reads as follows: "Whoever possesses or stores any weapon (pistol, revolver, rifle, shotgun, spring gun, or any other firearm, bludgeon, blackjack, slingshot, sand-club, sandbag, metal knuckles, dagger, dirk, billy, switchblade knife, stilling, any bomb, bombshell, grenade, bottle or other container containing an explosive or noxious substance, or any other deadly or dangerous weapon or instrument of like character) on land supported in whole or in part with state funds or federal funds administered through state agencies or in any building on such land without prior written permission from the chief security officer for such land

or building shall be fined not to exceed \$1000 or imprisoned in a penal institution other than the penitentiary not to exceed one year.

Chancellor Rendleman said the administration would request, with appropriate due process, mandatory expulsion for students convicted for violation, severance for faculty or staff convicted and appropriate penalties for outsiders found in violation of the law.

SIU-SW security officers have been ordered not to wear guns during daylight hours on recommendation of the Faculty Senate, approved by the chancellor. Rendleman said the role of security office is not similar to that of a county sheriff's office or a municipal police department.

SIU-SW officers spend more time on traffic and crowd control than city or county officers. They will have ready access to their guns during the daylight hours.

"Many people view guns on campus security officers as symbols of violence and resent their continual display. Our security office has strict rules about the use of firearms and in the last five years the use of firearms has never been necessary," Rendleman said.

Student Art Exhibit Judging Underway

Judging is now under way for Southern Illinois University-Southwestern's annual student art exhibition, according to Prof. David Huntley, chairman of the art faculty.

Judges are Prof. John McIvor of the State University of New York at Buffalo; Edward Reep of the Chouinard Art Institute, Los Angeles; and Bruce Tippet, English artist now living in New York City.

The judges have more than 400 works to evaluate. Huntley said. From these 100 to 150 will be chosen to be exhibited in the lobby of the Communication building through Saturday. From this number, about 50 will be selected for the annual Best of the Year Show, June 5 to July 12.

While the visiting artists are on the campus they are meeting with art classes, holding seminars and individual conferences with students.

She has been a representative from the Illinois Council of Youth and this year has been appointed to another three-year term. She is a freshman at Loyola University in Chicago.

Conference activities got underway as Stephen B. Hess, national chairman of the 1970 White House Conference on Children and Youth, gave the keynote address.

Other conference speakers included Gov. Richard B. Ogilvie, who addressed the banquet on "Communication, Commitment and Action."

The 1970 White House Conference on Children and Youth is the seventh such conference since Theodore Roosevelt called together 200 persons in 1909 to consider ways to preserve and strengthen home life for children.

Among speakers at that first conference were Jane Addams and Booker T. Washington. Outgrowth of the 1909 conference included the mother's pension movement, forerunner to aid to dependent children; improvement in foster child care; and creation of a national voluntary organization, the Child Welfare League of America.

The impact of the conference was so significant that conferences have been called each 10 years since. Results of other conferences included such things as child labor laws, services for crippled children, foster home and day care programs, and improved treatment of delinquent children.

In Illinois, the 1960 conference brought about creation of the Department of Child and Family Services, extension of child welfare services, revision of the Juvenile Court Act and passage of legislation for reporting child abuse.

The Illinois Council of Youth was created, as was the Commission on Children, an agency charged with the follow-up work on conference recommendations and serving as spokesman and advocate of child services.

Remove the Occupational Stigmas

(Kenneth News & Advertiser, Kennet Square, Pa.)

The recent strike of trash collectors in Philadelphia, when residents were literally almost buried in their own refuse, points up better than anything how mankind is increasingly becoming dependent upon many groups for its existence.

And as these groups become unionized and organized for economic pressure, society becomes increasingly vulnerable to attack from any power-seeking group.

Nor is the problem confined to the big eastern metropolitan centers. We have recently been reading about the difficulties of trash collection contractors in many medium-sized towns of Florida, where the costs of trash collection are zoning up each year and posing increasing strains upon municipal budgets.

Quite likely this is going to become a growing problem for all towns, as inflation forces for costs, trash grows heavier for collection and more expensive for disposal, and collectors become unionized.

Some Florida communities have instituted or are considering installing a sliding scale for trash and garbage collection.

The minimum cost would be for one bag of trash in a plastic bag, placed at the curb in front of the house.

Two bags would cost slightly more, but not twice as much as one.

If the trash is placed in a metal or plastic lidded container, that costs an additional fee for handling the container and returning it to the curb.

And if the trash man has to make a trip to the rear of the house for the container, that is another added cost.

You can see how the complications will grow, and eventually require a clerk to accompany each trash truck to tabulate all the various combinations of variables in collection charges.

But the men who operate the collection facilities say they are faced with an even greater problem—keeping men to man the trucks and do the physical collection.

It is not so much a matter of wages paid—although the job used to be far down on the scale of municipal pay—as it is the social stigma attached to the job.

So maybe as our society becomes more congested, and more and more dependent upon different agencies for survival, we will need to take another look at the social "prestige" we have in the past attached to certain positions.

Is the lawyer more vital to your existence than the plumber? It depends upon whether the garage mechanic or your plumber is stopped.

Is the physician more essential to your existence than the trash collector? It depends upon whether you are feeling all right, or whether you're about to be smothered in trash.

Is the garbage mechanic more important than the registered nurse? It depends upon how your car is running in contrast with how you are running.

The truth of the matter in our increasingly complex society is that we are all essential to each other, and we all suffer when one segment tries to exploit another.

NUTRITION A LA CARTE

• Extensive research has failed to show that the absence or presence of any one vitamin in the diet will either cause or cure arthritis. Careful medical examination of people with arthritis have been helped with trick diets would show that most of them are self-inflicted afflictions, rather than genuine sufferers of rheumatic disease.

• Older men and women average more than 30 percent below the recommended amounts of calcium they should eat daily. If they would drink more milk, or eat its equivalent in other dairy foods, they'd be better off.

• One of the most prevalent diseases for older people is osteoporosis. It softens and makes bones smaller. More calcium will help offset this.

• You've probably heard that potassium is an essential nutrient. But few people understand its function. Potassium is essential to other chemicals in our bodies, serves to transmit the electric currents that are vital for our brains, muscles, heart, and nerves to operate. Potassium is widely distributed among common foods, especially fruits and vegetables.

• Remember the tale about the human body being worth 98 cents for the chemicals it contains? Well, according to research scientists, the chemicals

in the human body are worth much more today, about 800 dollars. The value is due to the high cost of obtaining enzymes and nucleic acids in purified form for research.

It's hard for an adult to get enough vitamin B regularly unless at least two glasses of milk are used each day to supply about half his need. Even with two glasses of milk, you need several other good sources of this vitamin each day. These include beef, green vegetables, leafy greens, dried beans, cheese, ice cream.

• There's no doubt that individuals perform best when they are well-nourished. Science has not shown that vitamins are helpful to greater achievement by taking special supplements or vitamin pills. Food is the preferred source of nourishment. Only a physician knows when supplements are really desirable.

• Compared with 50 years ago, Americans now consume 10 percent less calories per person. Sounds encouraging, doesn't it? But think of this: 50 years ago, more people worked at physical labor and needed more calories. Today, we have more older people and their calorie needs are generally less. So, cut down on calories or increase your exercise.

GRANITE CITY BOARD OF REALTORS

ONLY MEMBERS OF THE G.C.
BOARD OF REALTORS ARE LISTED
ON THIS PAGE

How to be the last on your block to recognize a Realtor.

It's easy. If you don't know what a Realtor is, he's not just anyone in real estate. He's professional. The one with experience and expertise, who is pledged to the strict code of ethics of

the National Association of Real Estate Boards. If he weren't, he couldn't be a Realtor. That's good. Especially when he's working for you. Because you can relax, knowing your

best interests are being taken care of, ethically, professionally. There's no better way than that, is there?

YOUR REALTOR®

Somebody Good to Have Working for You. A Realtor is a professional in real estate who subscribes to a strict Code of Ethics as a member of the local and state boards and of the National Association of Real Estate Boards. You can recognize him by this seal.

All Offices Will Be Closed Sat. & Sun. In Observance of Memorial Day.
